Cement Walk Builders
Prove Poor Spellers

Spelling might well be a requirement of cement walk builders, according to one official here.

Recently the official had occasion to notice the sections and street names stamped on the concrete walks in certain portions of the city. In the course of his walk he noticed that the street names were misspelled in the walks, although correct on the city guide posts. Among the names misspelled, with the mistake, were the following: Nevada, Nevada; St. Vrain, St. Vrain, and San Marcial, San Marcial.

Your Federal Taxes

Q. WHERE partnerships required to pay an income tax on the net income for the year 1917?

A. Partnerships were required to pay an income tax on net income over \$2,000 for the year 1917.

Q. I have been informed that I will have to pay an income tax on the sale of my property. I figured the value of this property as of March 1, 1913, and deducted that value from the sale price, the difference not being enough to make my net income taxable. I thought the property in 1913 and have been informed that I will have to pay the income tax in value from that date, and not take the value as of March 1, 1913 as a basis. Please give me the correct ruling on this.

A. With reference to your question, the law clearly states that the actual value of March 1, 1913, governs in computing the profit on the sale. If you can clearly establish the value of March 1, 1913, that is all the government requires.

Q. In figuring invested capital are municipal bonds classed as admissible assets?

A. No, they are classed as inadmissible assets.

Q. A. Carvel, room 17, chamber of commerce, will answer any question connected with the federal income tax.

Lazy Life During Hot Months
Causes Lazy Liver

AT no other time is the girl so constant a companion of her mother as when she is emerging into womanhood. There are so many questions to ask; so much she needs to know.

And school is over. Here is now a lazy, inactive, careless life. No wonder she is not always as lively and as well as she should be at her age. Let the mother inquire if the bowels are functioning properly, for there lies the basis of good and poor health.

It will usually be found that a laxative is needed, and none will give safer and quicker relief than Dr. Caldwell's Syrup Pepsin, which is just a combination of simple laxative herbs with pepsin. Take tonight, it acts freely and pleasantly in the morning. The head is again clear, the body light. There is rest and interest in life.

A dose of Syrup Pepsin now and then is almost a necessity for everyone in hot weather. A bottle can be bought at any drug store for 50c and \$1, the latter being the family size, or a free trial bottle can be had by sending your address to Dr. W. B. Caldwell, 450 Washington St., Monticello, Ill.
